

AW109 LUH

The cost-effective force multiplier

The AW109 Light Utility Helicopter (LUH) has established itself as the world's best selling military light-twin helicopter able to satisfy a wide range of requirements. The ability of AW109 LUH to fulfil a wide range of missions makes the aircraft a true force multiplier, providing military commanders with excellent operational flexibility.

The AW109 LUH is a rugged helicopter with excellent ballistic tolerance, redundancy of systems and crashworthiness for maximum safety and survivability. The integrated Mission Equipment Package (MEP) includes day/night and IFR avionics for single or dual pilot operations with a four-axis digital Automatic Flight Control System (AFCS).

The availability of a wide range of armament and mission equipment makes the LUH a real multi-role helicopter, able to perform all light helicopter roles including training, troop transport, medical evacuation, search and rescue, maritime patrol, observation, armed escort and anti-armour. The AW109 LUH can be armed with rocket pods, machine gun pods, pintle mounted machine guns, anti-tank and air-to-air missiles.
